

创建一个标题为“用户登录”的框架(JFrame)。当输入帐号 2022001，密码 123 并单击“登录”按钮后，若输入正确，弹出“登录成功”消息对话框。若输入错误，则弹出“登录失败”消息对话框。单击“退出”按钮则退出此程序。界面参见下图：

The image displays two screenshots of a Java Swing window titled "用户登录" (User Login). The window has a standard title bar with minimize, maximize, and close buttons. The main content area is light gray and contains two labels, "用户名:" (Username) and "密码:" (Password), each followed by a text input field. Below the input fields are two buttons: "登录" (Login) and "退出" (Exit). The top screenshot shows the initial state where both input fields are empty. The bottom screenshot shows the state after the user has entered "2022001" in the username field and "..." in the password field.
